---

Hello! I'm a Software Engineer with a robust background in Python, Java, HTML and database management. My passion lies in crafting efficient solutions and optimizing data-driven applications to drive innovation and achieve business goals.

## WORK EXPERIENCE

---

### Python Programming Intern

04/2024 to Present

Oasis Infobyte

Remote

As a Python Programming Intern, I create and maintain scale able software applications. I am instrumental in the entire software development life-cycle, from writing clean, efficient code to testing and debugging applications.

## SKILLS

---

Java

Python

HTML

SQL

OOP

Databases

Machine Learning

Software Testing

Software Debugging

SDLC

Agile development

Quality Assurance

## EDUCATION

---

### Hyperion Development

Software Engineering

Cape Town / Remote

03/2022 to 11/2022

### Monument Park High School

Business, Computer Applications

Technology, Accounting

Cape Town

02/2016 to 08/2021

## ADDITIONAL INFORMATION

---

Bringing a robust set of soft skills to the table, I excel in **problem-solving**, **effective communication**, and **teamwork**, which are complemented by my adaptability and meticulous attention to detail. My **emotional intelligence** allows me to navigate the complexities of team dynamics, ensuring a harmonious and productive work environment. These skills, paired with my technical expertise, make me a valuable asset to any technology-driven team.
